Ethical Awareness	Below Expectations Score =1	Progressing toward Expectations 2	Meets Expectations 3	Above Expectations 4	Greatly Exceeds Expectations 5
Identification Identify ethical aspects in a business situation	Fails to identify even the most obvious ethical aspects of the business situation at hand		Identifies only the most obvious, basic ethical aspects of the situation at hand. Does not identify the more subtle, abstract, deeper ethical elements of the situation.		In addition to the obvious ethical issues, student recognizes and identifies the more subtle, abstract elements of the decision situation at hand
Application Applying an appropriate ethical decision-making (EDM) framework as a means of analyzing the situation at hand	Student is incapable of identifying and, thus, applying any EDM approaches or of analyzing the situation from any discernable EDM perspective		Student identifies and applies only 1 EDM framework to the analysis of the decision situation at hand		Student is able to demonstrate the applicability of at least 2 different EDM approaches. In addition, makes an appropriate selection of one to use for analysis of the decision situation at hand
Prescription Recommending a series of realistically actionable behaviors as a means of resolving the ethical decision situation at hand	Fails to provide basic, superficial recommendations as to the resolution of the decision situation at hand		Student's application of the chosen EDM approach leads to only the most obvious selection of behaviors and actions. Additional, secondary behavioral recommendations not provided		Student's use of the chosen EDM framework results in a wide variety of behavioral recommendations. Included in these recommendations are not only obvious actions, but also more sophisticated, subtle behavioral suggestions.
