

Assignment #3 (aka Review Paper #2)

- Write a 2 to 3 page review of a journal article about product design and development. Find and discuss contradictions, disagreements, agreements, and/or support for the view of design presented in class.
- There are a number of journals that review the concept of design and development, including
 - Research in Engineering Design;
 - Journal of Engineering Design and Technology;
 - Product Design and Development
- Give a complete reference for the article, using an appropriate format. You may follow a format similar to that in the article, typically something like:
 - Author (Year). "Title." *Journal*, Volume, Pages.
 - As the ASU Libraries tutorial on citing sources says "Used it? Then cite it!" (<http://www.asu.edu/lib/tutorials/citations/index.htm>)
- Utilize a writing style that is appropriate for a technical paper
- Submit via SafeAssign in Blackboard
 - Be sure your name is in the submitted paper (for example, header or footer)
 - Use the file naming convention: LastName_FirstName_IEE581_Assignment3
 - Post file in pdf format; Other file formats will not be graded
- The assignment is worth 20 points
- Due 4/21/2014
