Case Study Analysis

1. Clearly define the problem to be solved or identify symptoms that suggest an underlying problem.

<Enter your response here.>

2. Who are the stakeholders in this situation and how are they involved or impacted by this problem?

<Enter your response here.>

3. What alternative solutions should be considered in solving this problem? How did you arrive at these alternatives?

<Enter your response here.>

4. What are the advantages and disadvantages of each alternative? Quantify where possible.

<Enter your response here.>

5. Indicate which alternative you would recommend and why.

<Enter your response here.>

6. Indicate the potential risks if this recommendation turns out to be wrong.

<Enter your response here.>

7. How do you expect each of the stakeholders to react to your recommendation?

<Enter your response here.>
