If a proposal is selected, it will be the most advantageous regarding price, quality of service, the Contractor’s qualifications and capabilities to provide the specified service, and other factors that Washtenaw County may consider. The County does not intend to award a Bid fully on the basis of any response made to the proposal; the County reserves the right to consider proposals for modifications at any time before a Bid would be awarded, and negotiations would be undertaken with that provider whose proposal is deemed to best meet the County’s specifications and needs.

B. RECYCLING COLLECTION AND PROCESSING (“Section 2”)

Washtenaw County has a strong commitment to waste reduction and recycling. Recycling is official County policy and employees have been participating in a program for over ten years.

Since 1997, the County's In-House Recycling Program has consisted of a two-stream sorting process, as follows:

Mixed Paper	Mixed Containers	Cardboard/Styrofoam
White Ledger	#1 PET Plastic Bottles	Boxes
Colored Ledger	#2 HDPE Plastic Bottles	Frames (Certificate)
Computer Print Out	Milk Cartons	Press Board
Copier & Laser Print Paper	Drink Boxes (aseptic)	Cups
Newspapers	Steel Cans	Containers
Magazines	Aluminum Cans	Peanuts/Popcorn
Boxboard		Packing Materials
Blueprints		
Envelopes		

Materials are collected in County offices in corrugated boxes lined with colored or translucent plastic bags. Materials are then transported outside into 90-gallon collection carts. Paper is generally emptied into the carts loose, while rigid containers are kept in the plastic bags. Historically, mixed paper has represented over ¾ of materials collected. Typically, over 180 tons of office paper is collected from Washtenaw County facilities every year. Cardboard has been collected and delivered to the Comprehensive Drop-off Station at 2950 Ellsworth Rd. approximately 4,042 un-compacted cubic yards of cardboard were collected during 2009.

In addition to those items listed above, corrugated cardboard and Styrofoam should also be collected for recycling. County staff will flatten cardboard/Styrofoam and place in a dumpster provided by the Contractor. Please list items that are not acceptable for recycling.

Washtenaw County's In-House Recycling Program will:

- | | |
|--------------------------------|--|
| Be easy to understand | Foster high participation |
| Be easy to implement | Achieve a high recovery rate |
| Be convenient for employees | Produce high quality recyclables |
| Capture a variety of materials | Track program performance (in terms of yards or tons diverted) |

The successful Contractor will:

1. Provide external collection containers as needed for recyclables at each location (e.g. carts or Dumpsters; may differ by location according to space availability and contractor's collection method)
2. Collect recyclables on a regularly scheduled basis, determined by the Contractor and agreed upon by the County.
3. Work with the County's In-House Recycling Program Coordinator to ensure that materials are sorted properly and according to specification.
4. Provide quarterly reports to the County's In-House Recycling Program Coordinator on the volume or tonnage of materials collected.
5. Provide quarterly reports to Washtenaw County on the composition of materials collected, based on an internal audit of Washtenaw County materials.
6. Provide recycling of Styrofoam products.
